

IF YOU HAVE

Double or Single-Hung Tilt Windows

We can:

- Improve the safety of your windows by:
 - Eliminating the dangerous guillotine sash effect
 - Ensuring your windows lock & operate properly
 - Eliminating accidental tilt-ins
- Decrease your energy costs by eliminating air infiltration (drafts)
- Eliminate the headaches and repairs associated with continually leaky windows
- Improve the overall ease of operation of your windows

IF YOU HAVE

Casement Windows

We can:

- Improve the safety of your building by ensuring your windows lock and operate properly
- Decrease your energy costs by eliminating air infiltration (drafts)
- Eliminate the headaches and repairs associated with continually leaky windows
- Improve the overall ease of operation of your windows

IF YOU HAVE

Sliding Windows

We can:

- Improve the safety of your building by ensuring your windows lock and operate properly
- Decrease your energy costs by eliminating air infiltration (drafts)
- Eliminate the headaches and repairs associated with continually leaky windows
- Improve the overall ease of operation of your windows

LET THE SUN SHINE IN...

We can replace unsightly, failed insulating glass units with new fully warranted units.

DRAMATICALLY IMPROVE THE EASE OF OPERATION OF YOUR WINDOWS by replacing inefficient and failing block-and-tackle or spiral balances WITH OUR CUSTOM-MADE HIGH-PERFORMANCE BALANCE SYSTEMS.

IF YOU HAVE

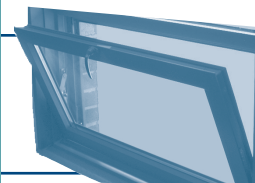

Double or Single-Hung Side-Load Windows

We can:

- Improve the safety of your window by:
 - Eliminating the dangerous guillotine sash effect
 - Ensuring your windows lock & operate properly
- Decrease your energy costs by eliminating air infiltration (drafts)
- Eliminate the headaches and repairs associated with continually leaky windows
- Improve the overall ease of operation of your windows

IF YOU HAVE

Awning Windows

We can:

- Improve the safety of your building by ensuring your windows lock and operate properly
- Decrease your energy costs by eliminating air infiltration (drafts)
- Eliminate the headaches and repairs associated with continually leaky windows
- Improve the overall ease of operation of your windows

► WE CAN IMPROVE THE:

- Safety
- Ease of operation
- Aesthetics and
- Efficiency of your windows

► AND AS A RESULT, SAVE YOU MONEY BY:

- Repairing your existing windows at a fraction of the replacement cost, and
- Decreasing your energy costs by reducing air infiltration (drafts)
